How it work's:

1 | Register

You can register easily online. Simply scan the QR code on this flyer to go straight to your company's registration page. If you register by the twentieth of a month, you can start on the first of the following month.

2 | Access via the Wellpass app

Download the Wellpass app from the Google Play Store or the App Store and log in to the app using your email and password. You create your access details when you register. All Wellpass studios have a display card with a QR code that you scan using the Wellpass app. You will receive a check-in confirmation on your screen, which you must then show at reception. This allows you to access all of our facilities. You can access our online courses directly via the app.

3 | Starting your training

You will be given an introductory consultation when you start your training. Experienced trainers will find out more about you and discuss your personal fitness and health goals with you. This information is used to draw up your individual training program. The introductory fee of €44.00 ensures you receive high-quality training. It is a one-off payment that can be made in the partner studio of your choice. Please arrange an appointment for your introductory consultation before your first training session. This introductory session will make it easier for you to start at a studio and help familiarise you with the equipment and services on offer.

If you already have a contract with a Wellpass fitness studio, you can suspend this for the duration of your Wellpass membership.
